Woodland Trust in memory dedications

The Woodland Trust is the UK's largest woodland conservation charity. We protect, restore and create new woods across the UK – we currently care for more than 1,000 woods from Scotland to Cornwall, and from East Anglia to Northern Ireland.

By dedicating one or more trees you have supported our vital work. The dedicated tree is alive with plants, insects and wildlife and has the potential to grow even more valuable as the centuries pass and it becomes a veteran, and then an ancient tree.

There is no more direct way to show your appreciation for the extraordinary beauty of our native woodland than dedicating trees or groves.

Thank you.

If you have any queries about your dedication or donation, please call **0330 333 3300** or email **dedications@woodlandtrust.org.uk**.
